ORTHODONTIC

SLIM FLUSH **CUT & HOLD** DISTAL END CUTTER

O-Ring Design, 678-114

Hu-Friedy's inserts ensure the cutter flushly cuts wire distally to the buccal tube or bracket. The blue silicone ring holds the cut wire until released. The slim design of the cutter increases intraoral visibility, reduces debondings and is more comfortable for the patient.

The 678-114 is designed for all wire types, up to a maximum of .021" x .025" (.53mm x .64mm).

POINTS OF PERFORMANCE

Crafted with Immunity Steel®
A proprietary blend of Surgical Grade Stainless Steel for a long-lasting cutting edge plus corrosion resistance

Cuts Flush
Distal wire is cut flush to brackets for optimal patient comfort

Slim Design
Slender working end improves intraoral visibility, reducing debondings.

Blue Ring
Brightly colored medical grade silicon ring cushions and holds the cut wire.

10 blue silicon rings included in package. Replacement rings can be purchased.
| 678-114R50 50 PACK OF RINGS or **| 678-114R150** 150 PACK OF RINGS
