

# HU-FRIEDY IMPLANTOLOGY GUIDE

## KIT LIST

**Hu-Friedy's Fundamental Concepts in Implant Dentistry** was created to be a complete guide on the full life cycle of the implant. The guide begins with patient assessment and site preparation, covers implant placement and prosthetic selection, as well as implant maintenance and care for peri-implantitis.

To accompany the guide, Hu-Friedy has developed suggested instrument kit lists which correspond with the topics covered, including: Atraumatic Extraction Socket Preservation, Sinus Lift - Lateral, Sinus Lift - Crestal, and Ridge Augmentation.

### Ridge Augmentation Kit List

| DESCRIPTION                                   | PART CODE | QUANTITY |
|-----------------------------------------------|-----------|----------|
| <b>Basic Kit</b>                              |           |          |
| University of Minnesota Cheek Retractor       | CRM       |          |
| Implantology Surgical Retractor               | IR        |          |
| Urban Cheek Retractor                         | CRURBAN   |          |
| 5 Straight Round Scalpel Handle               | 10-130-05 |          |
| 3 Scalpel Handle                              | 10-130-03 |          |
| Buser Periosteal Elevator, Black Line         | PPBUSERX  |          |
| 9 Molt Periosteal Elevator, Black Line        | P9X       |          |
| PR-3 Prichard Periosteal, Black Line          | PPR3X     |          |
| 2/4 Molt DE Curette, Black Line               | CM2/4X    |          |
| 10 Miller Surgical Curette                    | CM106     |          |
| 11 Miller Surgical Curette                    | CM116     |          |
| 40mm Weiss Modified Curved Bone Caliper       | CLC40CWM  |          |
| 40mm Curved Castroviejo Bone Caliper          | CLC40C    |          |
| 40mm Straight Castroviejo Bone Caliper        | CLC40L    |          |
| 1 Short Lindemann Bur                         | BURL1     |          |
| 2 Medium Lindemann Bur                        | BURL2     |          |
| 3 Long Lindemann Bur                          | BURL3     |          |
| 2 Modified Trephine Bur                       | TRE020M   |          |
| 4 Modified Trephine Bur                       | TRE040M   |          |
| 6 Modified Trephine Bur                       | TRE060M   |          |
| 8 Modified Trephine Bur                       | TRE080M   |          |
| 3 Kramer-Nevins Bone Chisel                   | CKN3      |          |
| 55 Kramer-Nevins Bone Chisel                  | CKN55     |          |
| 75 Kramer-Nevins Bone Chisel                  | CKN75     |          |
| Edentulous Ridge Chisel (#36 Gold Foil Knife) | GF36      |          |
| 4mm Straight Osteotome                        | OSS6518S  |          |
| 7.5mm Curved Osteotome                        | OSS6521CS |          |
| 6mm Jovanovic Osteotome                       | OSTJ08    |          |
| 1 Mead Mallet, Nylon Ends                     | MAL1      |          |
