

HU-FRIEDY MIRRORS

A BETTER VIEW FOR BETTER PERFORMANCE

How the best perform

HU-FRIEDY MIRRORS

- Front surface reflection provides a sharp, distortion-free image
- High quality stainless steel ensures durability and corrosion resistance
- Double-sided version allows clinicians the ability to maintain indirect vision and illumination while comfortably retracting the patient’s cheek and tongue
- Unique retractor shank and thin profile enhance patient comfort
- Smooth and sleek design allows for efficient cleaning and care

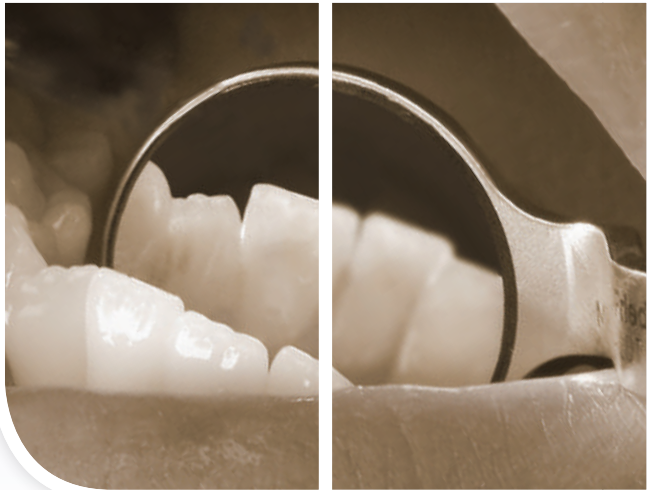

NEW

HIGH DEFINITION MIRRORS

Hu-Friedy’s new High Definition Mirrors feature a proprietary coating that provides superior brilliance and color. The extra brightness increases visibility in all dental procedures. Also scratch-resistant, our HD mirrors are the clear choice for optimal patient treatment.

- 113% reflection factor for exceptional image clarity*
- 38.5% brighter than rhodium coated mirrors*
- 50% brighter than other front surface mirrors*
- Scratch-resistant for product longevity
- Large ergonomic handle options
