

HU-FRIEDY STAINLESS STEEL MOLAR CROWNS

Experience the perfect fit for all patients

No matter what patient walks through your door, Hu-Friedy now has you covered more than ever before. **Our line of Stainless Steel Crowns has expanded to include Permanent Molar Crowns!** All of our Stainless Steel Crowns deliver all the features and benefits of our Pado Crowns that you love, but now in the form of Permanent Crowns as well.

POINTS OF PERFORMANCE

These stainless steel primary and permanent molar crowns were developed to deliver consistent, accurate and predictable clinical outcomes, while allowing the practitioner to work more effectively and efficiently, ensuring more time for value-added services such as patient education and treatment planning.

- **More narrow mesial-distal maxillary first primary molar width** for quicker adjacent crown placement
- **Ideal wall height** meaning less trimming and crimping (if at all!)
- **Pre-trimmed, crimped and contoured surfaces** for less time spent chairside
- **Accurate occlusal anatomy** mimicking the natural tooth
- **Optimal occlusal thickness** with superior resilience to abrasion and perforation
