The Best In Practice

Nevi™ Sickle Scalers

Superior Interproximal access featuring **EverEdge™ 2.0 Technology**

The Nevi™ Series of instruments were invented by legendary HuFriedyGroup artisan Neville Hammond with significant input from clinicians. Each of these anterior and posterior instruments were designed for exceptional efficacy, efficiency and comfort. The optimized blade angles provide superior interproximal access and reach to help make hand scaling the best part of the appointment.

Each Nevi™ Instrument comes with our **EverEdge™ 2.0 Blade Technology** for longer-lasting edges and a more efficient, comfortable scaling experience.

Anterior Sickle Scalers

NEVI™ 1

NEVI™ 1/H5

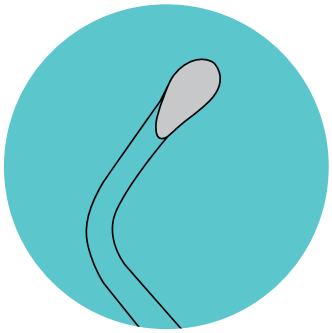

Two distinct working ends provide solutions for anterior scaling needs

- **Sickle End:** A moderate length, thin scaler with two cutting edges and a blade that tapers to a point. Ideal for removing anterior interproximal calculus and stain
- **Disc End**: A moderate sized, sharp rounded disc. Excellent for removal of anterior lingual stain

The Nevi 1™ Scaler is also available with a longer sickle working end (Nevi1/H5).

Mesial Left Central Incisor

Nevi™ 1 Disc End

Lingual Left Lateral Incisor

Posterior Sickle Scalers

NEVI™ 2

- Perfect for **light to moderate interproximal** calculus removal
- The thinnest dual tapered blades in the Nevi™ Instrument collection remove calculus with minimal tissue trauma
- Deep contra-angles are paired with extra blade length for easy access under contacts

Mesial Right First Molar

Distal Left Second Molar

NEVI™ 3

- Used for light to moderate calculus removal in **tight, narrow posterior interproximal areas**
- Ultra slender, dual cutting blades for effective placement
- Contra-angle bends in shank offer superior reach and adaptation to posterior interproximal areas

Mesial Left First Molar

Distal Left Second Premolar

Posterior Sickle Scalers

NEVI™ 4

- Ideal for scaling **heavy posterior interproximal** deposits
- Increased shank size and rigidity generates effective removal of tenacious, heavy and burnished deposits
- Working ends with dual tapered cutting edges allow for precise interproximal access
- Largest blade in the Nevi™ Instrument collection

Distal Right Premolar

NEVI™ 4 Lite

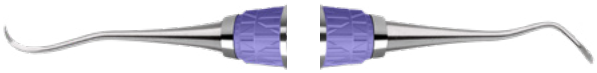

- 10% thinner than the standard Nevi™ 4 blade for enhanced access to tight interproximal spaces

Mesial Left First Molar

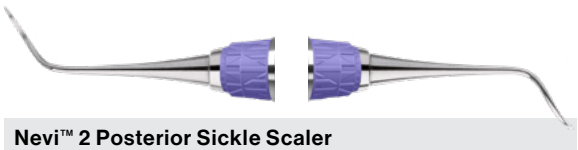

Nevi™ Sickle Scalers Featuring EverEdge™ 2.0 Technology

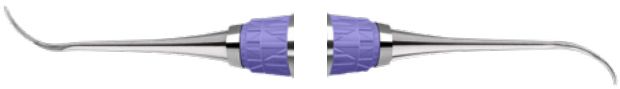

Nevi™ 1 Anterior Sickle Scaler	
Harmony	SCNEVI1XE2
#9	SCNEVI19E2
#G9, Steel Grip	SCNEVI1G9E2
#C8, Lavender	SCNEVI1C8E2

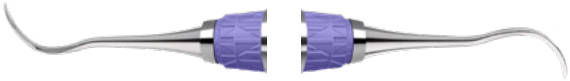

Nevi™ 1/H5 Anterior Sickle/Discoid Scaler	
Harmony	SNEV1/H5XE2
#9	SNEV1/H59E2
#G9, Steel Grip	SNEV1/H5G9E2
#C8, Lavender	SNEV1/H5C8E2

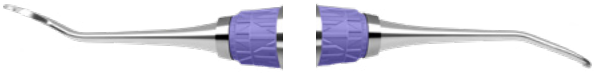

Nevi™ 2 Posterior Sickle Scaler	
Harmony	SCNEVI2XE2
#9	SCNEVI29E2
#G9, Steel Grip	SCNEVI2G9E2
#C8, Red	SCNEVI2C8E2

Nevi™ 3 Posterior Sickle Scaler	
Harmony	SCNEVI3XE2
#9	SCNEVI39E2
#G9, Steel Grip	SCNEVI3G9E2
#C8, Red	SCNEVI3C8E2

Nevi™ 4 Posterior Sickle Scaler	
Harmony	SCNEVI4XE2
#9	SCNEVI49E2
#G9, Steel Grip	SCNEVI4G9E2
#C8, Red	SCNEVI4C8E2

Nevi™ 4 Lite Posterior Sickle Scaler	
Harmony	SCNEVI4LXE2
#9	SCNEVI4L9E2
#G9, Steel Grip	SCNEVI4LG9E2
#C8, Red	SCNEVI4LC8E2

Several Nevi™ Scaler designs are also available with Immunity Steel™ Handles. Please see the full HuFriedyGroup Product Catalog for more information.
