

ResinEight™ Colors

The Colors You Want, the Quality You Deserve

Our ResinEight™ Colors Scalars and Curettes are ergonomic, lightweight and offer a color-coding system based on specific areas of the mouth. Plus, each instrument features our proprietary EverEdge™ 2.0 Technology, which keeps the working ends sharper longer.

Points of Performance

- **EverEdge™ 2.0 Technology** provides consistently sharp, long-lasting cutting edges for efficient scaling
- **Increased Rotational Control:**
The unique textured handle design has wave grooves and a special knurling texture for secure rotational control, providing a light secure grasp
- **Easy Instrument Identification:**
Eight distinct colors allow clinicians to quickly and easily select instrument types that follow a color-coding system based on the specific area of the mouth where it is used
- **Lightweight:** ResinEight handles are nearly 20% lighter than comparable stainless steel handles for reduced fatigue
