

#G9 EverEdge™ 2.0

Stainless Steel Scalars & Curettes

New from HuFriedyGroup — Our most popular EverEdge™ 2.0 designs are now available in an all stainless steel #G9 handle.

FEATURES AND BENEFITS

EverEdge™ 2.0 Working Ends

Premium blend of medical grade stainless steel. The working ends start out sharper and stay sharper for longer, allowing for:

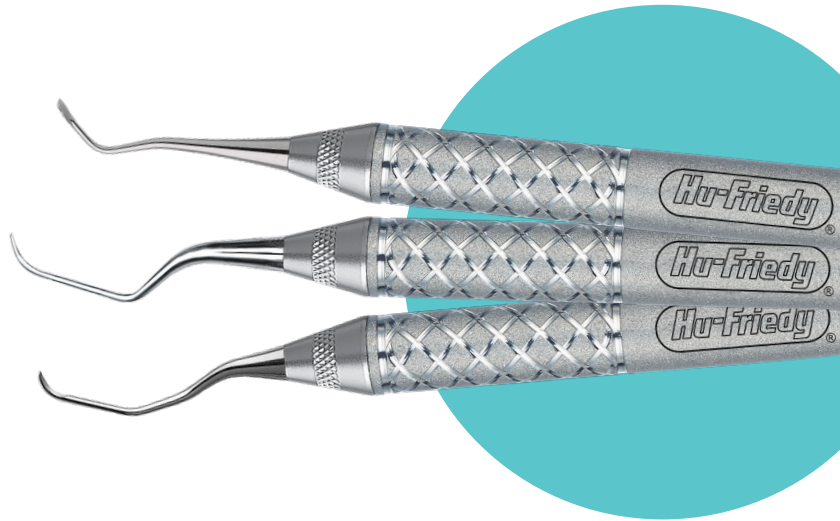

- More efficient scaling
- Fewer repetitive strokes
- Less application of pressure
- More clinician and patient comfort
- Reduced environmental impact

Classic #G9 Handle

- Large diameter provides ergonomic comfort
- Recessed, diamond knurl pattern for precision control and a secure grasp
- Absence of surface spikes or protrusions aids in minimizing soft tissue compression when scaling

Tapered Stainless Steel Cone

- Optimal finger placement and all-day comfort
- Stainless steel cone with recessed knurling for rotational control

EverEdge 2.0 –More options to meet your clinical preference
