PRODUCT CATALOG & REFERENCE GUIDE

How the best perform

Hu-Friedy®

"Using an instrument management system like Hu-Friedy's IMS facilitates processing and can substantially enhance instrument organization. It is essential to keep tasks as organized and safe for clinical personnel. Because direct handling of contaminated instruments is significantly reduced before sterilization, personnel responsible for instrument cleaning sterilization are at much less risk for sharps injuries."

—JOHN MOLINARI, PhD

"IMS Cassettes are, in my opinion, the most important efficiency tool for each dental procedure. Handling one cassette verses all the individual instruments for each procedure saves so much time during set-up, clean-up and reprocessing. If dental practices want to enhance productivity and efficiency, they simply must implement the IMS cassette system."

—MARY GOVONI, CDA, RDA, RDH, MBA

"Hu-Friedy Cassettes keep your set-ups together as a unit, so instead of processing hundreds of single instruments, you process fewer, larger items. The economy of time and effort is undeniable, but wait until you see the increased safety to go along with the efficiency! Sharp instruments are organized for safer, easier use, and contained for safer handling during re-processing. Cassettes with needle cap holders also become an engineered safety device for re-capping."

—NANCY DEWHIRST, RDH, BS

"Orthodontic practices clean and sterilize 600 to 1,000 instruments everyday! Cleaning and sterilizing this many instruments while treating patients can create a lot of stress for busy orthodontic teams. Hu-Friedy cassettes have helped my orthodontic clients improve clinical efficiency in addition to protecting orthodontic pliers during the cleaning and sterilization process. Improved efficiency gives the orthodontic team more time to focus on patient care and stay on schedule! Happy Staff + Happy Patients = Happy Doctor!"

—JACKIE DORST, BS, RDH

"As an orthodontic clinical consultant, I work with offices to increase their efficiency. Implementing IMS into their practice has been a huge benefit to many successful practices across the country. The clinicians love the system and doctors feel the stress level decrease and production increase. The patients' perception of the high quality care they receive is of great internal marketing value as well."

—ANDREA COOK

"I recommend the use of Cassettes to save time, increase efficiency, protect instruments from damage and reduce handling of contaminated instruments by dental personnel. Cassettes create a well organized system for transporting, cleaning, sterilizing and storing instruments."

—LESLIE CANHAM, CDA, RDA

> The IMS cassette system significantly aids efficiency at chairside and during processing – it is also important for the protection of my staff and our delicate instruments. We've found longevity of expensive instruments is increased and handling time is decreased.

— EDWARD PAT ALLEN, DDS, PhD

> Implementing IMS into my office greatly increased efficiency, productivity, and staff morale. In addition, it was so easy, cost effective, and did not require us to knock down walls or stop production like I had assumed. Improving the flow in our sterilization area expanded out to the entire office by letting us provide faster, easier, and better dentistry for our patients. We couldn't be happier!

— LOUIS MALCMACHER, DDS, MAGD

> When it comes to instrument management – the Hu-Friedy IMS Cassette system is my "go to" resource. If you want to leverage operational efficiency – (from more organized set-up grouping, to superior processing safety, instrument sterilization, storage and transport) – IMS is the one!

—RISA SIMON, CMC

> Hu-Friedy IMS instrument cassettes have made a major difference in my mobile practice of Dental Hygiene and my infection control practices. As a mobile dental hygiene business owner and infection control specialist, I have invested a lot into my instruments. These simple, durable devices are so easy to use and made a complex job become trouble-free. This product has been one of the greatest investments I have made into my practice. They simplify my life, save time and frustration. Every practice should be using this time and life saving device!

— NOEL BRANDON KELSCH, RDH

> As a risk manager, one of my primary concerns is safety for patients and clinicians alike. Hu-Friedy IMS addresses my concerns related to instrument processing and more. Standardizing instrument processing greatly reduces opportunities for errors, disease transmission or injury. In the end, utilizing IMS saves valuable time and allows you to focus on what you do best—providing outstanding patient care in a safe environment.

— LINDA HARVEY, RDH, MS, LHRM
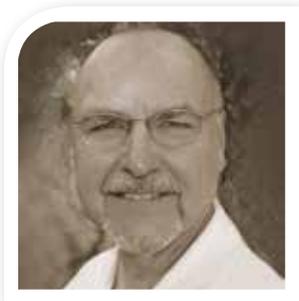

> As the former CEO of T.H.E. Design, I was involved with the design of thousands of elegant offices, but few items enhanced the efficiency of the practice like the IMS cassettes by Hu-Friedy. We could create an extremely efficient sterilization area which was smaller by a third when the practice employed IMS cassettes...as opposed to the practice employing trays with bagged instrumentation. But as we analyzed operational costs, we found the average office labor costs to be approximately 33% of the practice's total operational budget. So, anything we could do to minimize the largest single item of the practice's budget would potentially become profit; by utilizing IMS cassettes and an instrument washer, the average practice was saving two hours of labor every day in sterilization. Two big reasons I strongly recommended, and continue to recommend, the use of IMS cassettes.

— MARK THOLEN, DDS, MBA

THE INSTRUMENT MANAGEMENT SYSTEM CYCLE

Optimal infection prevention is facilitated by the use of tools that allow for improved efficiency and safety. Instrument integrity is further enhanced by the use of Hu-Friedy's Instrument Management System (IMS). IMS allows clinicians to move instruments from cleaning through chairside without touching or damaging the instruments.

1. **Chairside:** Patient Preview & Presentation
   - Systematically organizes instruments according to procedure type, allowing for more focus on patients and less time spent looking for missing instruments
   - Neatly organized instruments offer more professional appearance and can help enhance referrals

2. **Cleaning:** Processed & Prepped
   - Instruments are kept together throughout cleaning, rinsing and drying, reducing the potential for breakage or loss
   - Minimizes handling of instruments, reducing the chance for sharps injuries

3. **Sterilization:** Wrapped & Ready
   - Complete procedures are packaged in IMS Sterilization Wrap and placed in autoclave together to help reduce consumable usage
   - Reduced handling of instruments provides safer protocol and minimizes liability

4. **Storage:** Neat & Complete
   - Ready for use or storage until needed for increased time savings
   - Complete procedural set-ups for easy set-up and teardown

CHAIRSIDE 1

CLEANING 2

STORAGE 4

STERILIZATION 3

TABLE OF CONTENTS

EFFICIENCY = TIME = MONEY

Current IMS offices save 5 to 10 minutes per procedure*
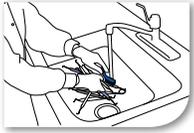

MANUAL		IMS
	Hand Scrub/Ultrasonic	**2 MIN**
	Rinse	
	Disinfect Tray	**1 MIN**
	Dry	
	Sort Instruments	**2 MIN**
	Pouch/Wrap	
	Autoclave & Store	
	Prep Tray/Find Instruments	**2 MIN**
	Chairside	
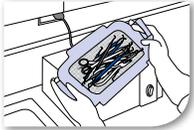

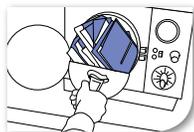

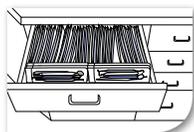

*Based on market survey results.
 Example: 7 minutes saved x 9 procedures = 63 minutes saved

ORGANIZATION

- Organizes instruments, accessories and disposables by procedure
- Color-coded cassettes and instruments for easy identification by procedure
- Quickly locate and identify clearly marked cassettes
- Professional chairside image through presentation of sterile packages
- Less counter space required vs. trays

SAFETY - REDUCE RISK OF INJURY AND EXPOSURE TO BLOODBORNE PATHOGENS BY:

- Minimizing handling of contaminated sharps
- Eliminating hand scrubbing
- Safer transportation of soiled instruments

INSTRUMENT INTEGRITY

- Potential damage (bending, breaking, etc.) is reduced by storing instruments in cassettes
- Reduced potential for lost or misplaced instruments
- Instruments held securely in proper cleaning positions (i.e., hinged instruments in open position) for optimal cleaning

EFFICIENCY

- Enhances chairside efficiency and easy training with standardized procedural set-ups
- Reduces set-up time with organized storage of instruments within procedural labeled cassettes
- Cassettes are placed into automated washer, ultrasonic bath and autoclave for facilitated cleaning and sterilization
- Reduces need for manual sorting of instruments into pouches
- Cleaning time reduced, allowing for a more productive team

WHY IMS?

Use the formula below to calculate how much
time and money your office could save with IMS

CALCULATE YOUR TIME SAVED

(based on a conservative estimate of 5 minutes saved per procedure)

1. Number of Procedures Per Day   _____
2. Multiply by Time Saved (5 minutes)   x 5
3. Total Time (minutes) Saved Per Day   = _____

CALCULATE YOUR POTENTIAL REVENUE PER DAY

4. Your Average Billing Hour $ _____
5. Divide #4 by 60 Minutes   ÷ 60
6. Revenue Per Minute $ = _____

7. New Revenue Per Day (#6 x #3) $ _____
8. New Revenue Per Year (#7 x Days Worked) $ _____

POTENTIAL ADDED REVENUE PER DAY

Procedures Per Day	Revenue Per Day				
	$1,000	**$2,000**	**$3,000**	**$4,000**	**$5,000**
10	$104	$208	$313	$417	$521
20	$208	$417	$625	$833	$1,042
30	$313	$625	$938	$1,250	$1,563
40	$417	$833	$1,250	$1,677	$2,083
50	$521	$1,042	$1,563	$2,083	$2,604

Example: A practice billing $2,000 of revenue a day doing 20 procedures would be able to generate an additional $417.00 per day
with the time saved using IMS.
$2,000 ÷ 480 minutes (8 hours) = $4.17 revenue/minute.
20 procedures x 5 minutes saved/procedure x $4.17/minute = $417.00.

- Time saved does not include improved chairside efficiency.
- Time saved can be used to improve office workflow and patient care, including time to assist, appointment callbacks, four-handed hygiene, etc.

Using IMS cassettes for instrument processing can save your
office staff up to 10 minutes per procedure.

Ergonomic latch with positive locking mechanism is safe and easy-to-use, allows one-handed opening and visual confirmation if the cassette is locked / unlocked. (Figure 2)

Revolutionary new hole pattern design creates 30% additional open area for more access during cleaning and sterilization, and is compatible with current cleaning equipment, including automated washers.

Innovative color-coded silicone rail system, available in 11 color options, significantly reduces instrument contact, allowing for more water flow while protecting the instruments during reprocessing. (Figure 1)

High quality, electropolished stainless steel protects against corrosion while providing a professional appearance.

Smooth round corners and slotted edges increase drainage and reduce drying time.

New beveled edge allows for a more ergonomic grasp.
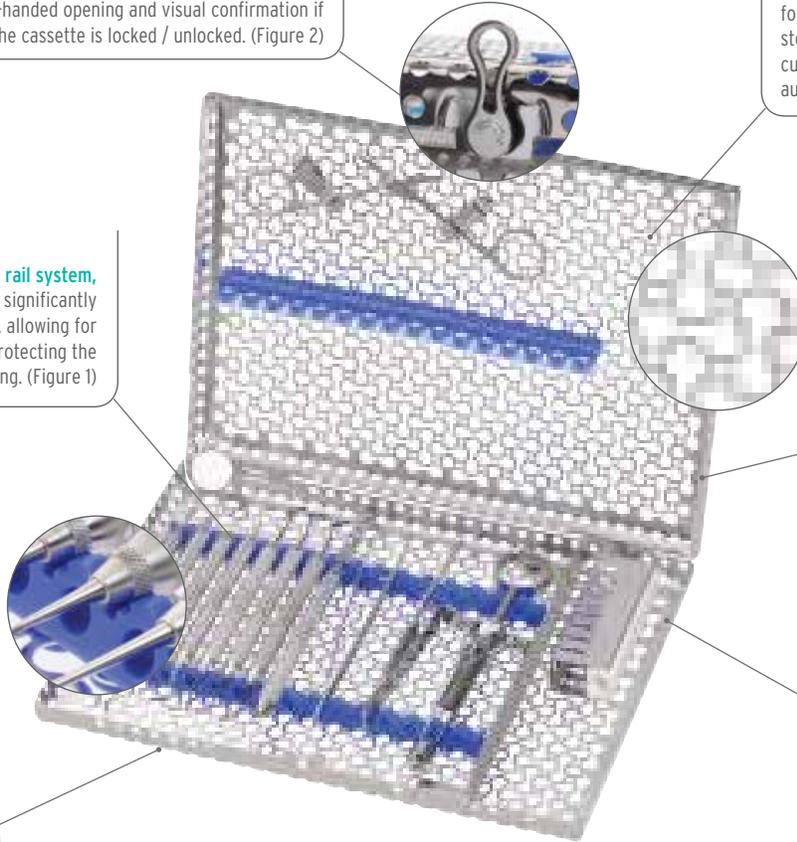

Figure 1

Figure 2

IMS INFINITY SERIES™ CASSETTES

IMS Infinity Series™ Cassettes are made of long-lasting, low-maintenance stainless steel. Soft, colored silicone rails securely hold instruments throughout the processing cycle. Available in over 100 different sizes, configurations and color options, cassettes can be specialized to meet your needs.

Exam Cassette – 5 Instruments
Exterior Dimensions 3" x 8" x 1.25"
(76 mm x 203 mm x 32 mm) Holds 5 instruments.

| Large Resin 12 Instruments | IMS-1112 |

Holds up to 12 instruments (pictured)

| Large Resin 16 Instruments | IMS-1116 |

Holds up to 16 instruments

BLEACH CLEANING RECOMMENDATIONS FOR RESIN CASSETTES

The resin cassettes should be bleach cleaned on a six month basis. They may be submerged in a solution of two cups bleach to one gallon of water (0.5 liters bleach to 4 liters of water) for 5 to 30 minutes. If staining has occurred, use less water and more bleach. If bleach does not break through the stain, wipe cassettes with isopropyl alcohol prior to bleaching. Be sure to remove instruments before placing cassettes in bleach solution as bleach is destructive to metal. This cleaning procedure is only recommended with resin cassettes. If staining does occur on stainless steel cassettes, wipe clean with soap and water. DO NOT use bleach process described for resin cassettes on stainless steel cassettes.

SIGNATURE SERIES™ TUBS

Together, procedure tubs and cassettes create the most efficient and organized system for managing instruments and consumable products. The time savings achieved by using IMS (Instrument Management System) cassettes and procedure tubs will allow the staff to spend time on more value added activities in the dental office.

Signature Series Tubs are designed to match IMS cassette rail colors and feature antimicrobial product protection.*

Signature Series™ Complete Tub
12-3/4" x 11-3/16" x 4"

Includes:
- Signature Series Tub
- Tub Liner†
- Tub Divider (package of 8)
- Single Tub Cup w/Cover†
- Double Tub Cup w/Cover†
- Divided Slide Tray†
- Locking Tub Cover†

Tub Dividers

Tub Liner

Dividers
12-3/4" x 11-3/16" x 1-3/8"

	IMS-1427

Includes 8 dividers

Tub Liner†
9-5/8" x 8-7/8" x 1/8"

	IMS-1428

Non-slip liner prevents small items from slipping under divider sections

†Clear components and tub liner do not contain antimicrobial product projection

SIGNATURE SERIES TUB CUPS & COVERS

Signature Series Tub cups and covers can be used to store brushes, clamps, cotton pellets, syringe tips, prophy paste, prophy angle tips, pumice, implant tools, etc.

Single Tub Cup with Cover†

| 2-1/4" x 1-5/8" x 1-1/8" | **| IMS-1424** |

Double Tub Cup with Cover†

| 3-3/8" x 2-1/4" x 1-1/8" | **| IMS-1425** |

Long Tub Cup with Cover†

| 8-1/3" x 2-1/4" x 1-1/8" | **| IMS-1426** |

- Provides 5 storage compartments
- Dividers are removable for customization
- Perfect for storing capsules, discs, abrasive strips, wedges, matrix bands, etc.

SIGNATURE SERIES CLIP-ON HOLDERS

Capsule Clip-On Holder

Syringe Clip-On Holder
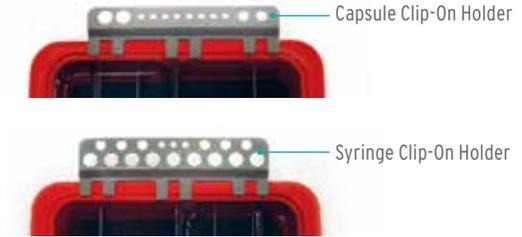

Capsule Clip-on Holder

| 8" x 2-1/2" x 3/4" | **| IMS-1429** |

- Allows quick access to composite material during procedure
- Conveniently clips on any side of tub
- Holds up to 8 capsules, 4 syringe tubes and capsule/gun dispenser

Syringe Clip-on Holder

| 8" x 2-5/8" x 3/4" | **| IMS-1430** |

- Allows quick access to composite material during procedure
- Conveniently clips on any side of tub
- Holds up to 15 syringe tubes and 3 applicator tips

SIGNATURE SERIES RACKS

13"

10-1/2"

Adjustable 3 Tub Rack

18-3/4"

10-1/2"

Minimum 7-1/2" - Maximum 15-1/2"

Adjustable 4 Tub Rack

Adjustable 3 Tub Rack

| MIN 7-1/2" – MAX 15-1/2" x 10-1/2" x 13" | **| IMS-1433** |

- Fits most standard storage cabinets
- Holds a maximum of 3 tubs with lids or 6 cassettes
- Non-slip feet
- Sturdy metal construction
- No screws, tools, nuts or bolts needed

Adjustable 4 Tub Rack

| MIN 7-1/2" – MAX 15-1/2" x 10-1/2" x 18-3/4" | **| IMS-1434** |

- Holds a maximum of 4 tubs with lids or 8 cassettes
- Sturdy metal construction
- Non-slip feet

SIGNATURE SERIES SYRINGE STANDS

20-Unit Syringe Stand

| 9" x 4-3/4" x 2 1/2" | **| IMS-1431** |

- Stands up for easy access to syringes
- Lays flat to fit inside a tub or drawer
- Holds up to 20 syringe tubes

10-Unit Syringe Add On

| 8-1/2" x 2-3/8" x 3/4" | **| IMS-1432** |

- An add-on for the Syringe 20 Unit Stand
- Provides additional space for syringe storage
- Holds up to 10 syringe tubes

ANTIMICROBIAL PROTECTION

*Antimicrobial protection is integrated into the tub and tub components during the manufacturing process. This technology works by interrupting key cell functions that allow the microorganisms to function, grow and reproduce. Antimicrobial protection begins to work as soon as the microorganism comes into contact with the product surface and works continuously to inhibit the growth of microbes that can cause stain, odors and product degradation – for the lifetime of the product.

ORGANIZATION PRODUCTS

IMS COLOR CODE INSTRUMENT RINGS

IMS Color Code Instrument Rings are silicone rubber rings used for identifying and organizing instruments. Useful for maintaining proper instrument order in cassettes and identifying instruments by procedure; can withstand all heat sterilization methods.

	Reglar Use on #2 and 4 Handles	Large Use on #6, 7, 8 and 9 Handles

IMS CASSETTE I.D. LABELS AND I.D. MARKER

Specially designed polyester pressure-sensitive labels for cassette identification.

IMS Cassette I.D. Labels	| IMS-1234

50 per package

IMS I.D. Marker	| IMS-1235

Permanent indelible ink marker is ideal for identifying procedural set-ups. For use on I.D. Labels or Monitor Tape.

SHINE RENEW PRODUCTS

Shine reNEW™ Products

Effectively remove stain and rust, restoring the luster to stainless steel and tungsten carbide instruments.

Liquid, 1 Gallon (3.8 liters)	**IMS-1453**
Instrument Wipes (20 wipe canister)	**IMS-1455**

- Keeps hinged instruments moving freely by dissolving built-up residue
- Eliminates the need for abrasive scrubs
- Quick and simple to use
- Shine reNEW Instrument Wipes can also be used on copper, brass and anodized aluminum

IMS® DAILY CLEAN GENERAL PURPOSE DETERGENT

IMS® Daily Clean General Purpose Detergent

Concentrated powder detergent specifically formulated for efficient ultrasonic cleaning or presoaking of cassettes and instruments.

1.1 lb (500 g) Makes 35 Gallons (132 liters)	**IMS-1220**
5 lb (2.27 kg) Makes 160 Gallons (606 liters)	**IMS-1218**

INSTRUMENT LUBRICANTS

Instrument Lubricants

The instrument lubricants come in a convenient non-aerosol pump bottle.

Penetrating Oil 8 oz (236 ml) Removes light rust and corrosion to loosen problem joints	**IPS**
Instrument Lubricant Spray 8 oz (236 ml) Keeps hinged instruments moving freely	**ILS**

Instrument Lubricant Spray (ILS) and Penetrating Oil (IPS) do not contain silicone.

CLEANING & CARE PRODUCTS
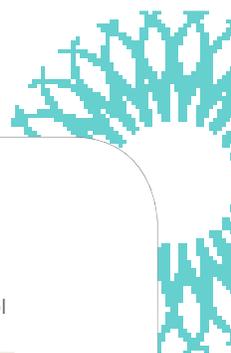

Enzymax® Dual Enzyme Ultrasonic Detergent is specifically formulated for efficient ultrasonic cleaning or pre-soaking of cassettes and instruments. Contains Steelgard™ agents to protect instruments from harmful minerals naturally found in water that contribute to buildup, spotting and corrosion. Multi-purpose applications including ultrasonic detergent, presoak, linen presoak, and evacuation cleaner.

ENZYMAX

CLEANING MONITORS

Proper instrument cleaning is the most important step to instrument reprocessing. If an instrument is not properly cleaned, it cannot be effectively sterilized. Take the steps to assure that your cleaning process achieves the highest quality results by incorporating Hu-Friedy Cleaning Monitors into your instrument reprocessing protocols. Using multi-parameter testing, Hu-Friedy Cleaning Monitors are designed to give you a clear interpretation of your cleaning process.

Colored test soil on strip is designed to parallel the removal of blood and bioburden from an instrument surface
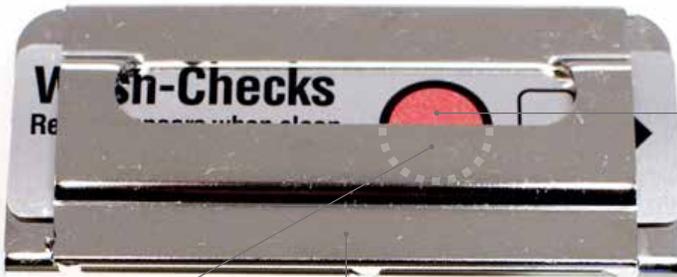

Cleaning Monitor Holder acts as a hinged instrument measuring impingement in washer-disinfectors

Reusable stainless steel holder secures monitor in place in order to provide accurate result

Ideal Cleaning Monitor Usage

WASHER-DISINFECTOR

Run a monitor test in the morning to release the equipment for use and minimum of one monitor per load for load release.

ULTRASONIC CLEANING

Monitor once daily with an empty load for a machine release and periodically throughout the day with instruments for a load release, if needed.

Parameters tested & Common failures

	Washer-Disinfector	Ultrasonic
Parameters tested by the cleaning monitors	• Time • Temperature • Detergent concentration • Spray arm function • Enzyme soak	• Cavitation • Time • Temperature • Detergent
Common Cleaning Process Failures	• Inadequate water spray/impingement • Clogged spray arms • Overloading • Instrument shadowing • Inadequate detergent dosing • Improper detergent dosing • Poor water quality	• Ineffective cavitation • Overloading • Insufficient time, temperature and/or detergent

DENTAL UNIT WATERLINE PRODUCTS

Team Vista™ Dental Unit Waterline Cleaner provides a more effective and economical way to keep waterlines safer and cleaner. This easy-to-use system provides both an organic irrigant and registered antimicrobial cleaner for enhanced patient care and equipment protection.

TEAM VISTA DENTAL UNIT WATERLINE CLEANER

Team Vista™ Dental Unit Waterline Cleaner

	U.S.	Canada
CONTAINS: 1 - One Fl oz bottle of VistaClean Irrigant Solution 15 - VistaTab Cleaner Tablets	IMS-1450	IMS-1450CA

- For use in independent water bottle systems
- Provides continuous cleaning of waterlines for up to one week
- Non-corrosive – gentle and safe on equipment
- One year supply per operatory

VistaTab™ Dental Waterline Cleaner Tablet

	U.S.	Canada
CONTAINS: 15 – VistaTab Cleaner Tablets	IMS-1451	IMS-1451CA

- Antimicrobial tablet used periodically for the cleaning and control of microbial contaminants
- Quickly dissolves to create a non-corrosive solution seven times more effective than bleach
- EPA registered antimicrobial in all 50 states

VistaClean™ Irrigant Solution Concentrate

	U.S.	Canada
CONTAINS: 1 – One Fl oz bottle of VistaClean Irrigant Solution	IMS-1452	IMS-1452

- Derived from organic citrus botanicals
- Listed with the FDA as a Class I Medical Device
- Helps protect waterlines and equipment from deposits and scale
- Works to emulsify organic and inorganic contaminants that build up in waterlines
- Safe for use with patients
- No odor or taste
- Non-toxic, non-corrosive
- No effect on bond strength

WATER SAFETY REQUIREMENTS

The Centers of Disease Control (CDC) recommends that dental unit waterlines be tested on a regular basis to maintain its established standard of less than 500 colony-forming units per milliliter.*

If dental unit waterlines are not maintained on a regular basis, bacteria will develop on the inner surfaces of the tubing, blocks and other system components.

Simply maintaining the waterlines is not enough; it is a two part process of cleaning and maintenance. Over time, bacteria can overwhelm the waterline environment and begin to create microbial deposits. Using a daily irrigant, like VistaClean, and cleaning the waterlines regularly with an EPA approved antimicrobial, like VistaTab, will clean and control microbial contaminants to provide improved water quality while helping to protect patients, staff, and equipment.

*Reference Centers for Disease Control and Prevention. Guidelines for Infection Control in Dental Health-Care Settings - 2003. MMWR 2003; 52 (No. RR-17): [pg. 31].
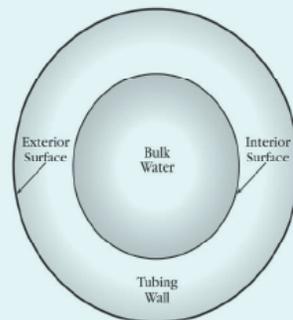

Figure 1. Clean dental waterline tubing. No biofilms or free-floating organisms present.
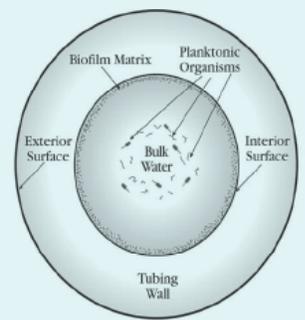

Figure 2. Contaminated dental waterline tubing. Biofilm on interior surface with abundant free-floating organisms.

IMS CASSETTE WRAP

IMS Cassette Wrap is engineered to withstand the harsh conditions of sterilization. Our unique compilation of textiles is designed to be strong and soft for easy wrapping and durability. This low-lint, memory free wrap is available in two grades to meet your needs. Manufactured for single use only.

Autoclave Wrap

Autoclave Wrap offers the best combination of softness and added strength.

24" x 24" (610 mm x 610 mm) For Large Cassettes, 500 Sheets	**IMS-1210**
20" x 20" (508 mm x 508 mm) For Large Cassettes, 500 Sheets	**IMS-1212**
15" x 15" (380 mm x 380 mm) For Small Cassettes, 1,000 Sheets	**IMS-1211**
12" x 12" (305 mm x 305 mm) For Small Cassettes, 1,000 Sheets	**IMS-1213**

Universal Wrap

Universal Wrap provides great performance at a lower cost.

24" x 24" (610 mm x 610 mm) For Large Cassettes, 500 Sheets	**IMS-1214**
20" x 20" (508 mm x 508 mm) For Large Cassettes, 500 Sheets	**IMS-1216**
15" x 15" (380 mm x 380 mm) For Small Cassettes, 1,000 Sheets	**IMS-1215**
12" x 12" (305 mm x 305 mm) For Small Cassettes, 1,000 Sheets	**IMS-1217**

Note: Hu-Friedy wrap is also available in packs of 100 sheets. Add "H" to the end of the part code.

IMS Lead and Latex Free Monitor Tape*
Safe for the environment, your staff and patients. Not made with lead or natural rubber latex. Does not require special hazardous disposal. Easy to use and read results. For steam autoclaves. 60 yards (55 m) per roll.

.75" (19 mm)	IMS-1460

IMS Tape Dispensers
Rubber suction cups on the base secure dispenser to table or counter. Dispenser can also be mounted under cabinet.

IMS Tape Dispenser 10.75" x 6.25" x 7.6" (273 mm x 159 mm x 194 mm) Holds up to 9 rolls of IMS Monitor Tape.	IMS-1270
IMS Mini Tape Dispenser 4.4" x 6.25" x 7.6" (111 mm x 159 mm x 194 mm) Holds up to 4 rolls of IMS Monitor Tape.	IMS-1270H

BAGETTE® SELF-SEALING STERILIZATION POUCHES

Bagette® Self-Sealing Sterilization Pouches are constructed with durable materials and thick seals. Built-in external and internal quality control indicators relay accurate time and temperature verification, allowing you peace of mind. The full line of pouches include those custom fit especially for our cassettes and smaller sizes for all other sterilization needs.

Size	QTY	Suitable Contents	Part Code

† Please see Hu-Friedy.com for complete list of suitable cassettes for this pouch.

IMS STEAM STERILIZATION MONITORS

IMS Steam Sterilization Indicators

IMS Steam Sterilization Indicators

Indicator strip verifies that steam sterilization parameters of time and temperature have been met. Use one in each cassette or pouch and retain for office records.

250 per box	**| IMS-1240**

IMS Steam Sterilization Integrators

IMS Steam Sterilization Integrators

Sterilization Integrators are a Class 5, multi-variable, sterilization monitor designed to react to all critical variables in the sterilization cycle: time, temperature and presence of steam. The integrators utilize a moving front indicator technology, which is an advancing color bar moving from reject to accept, eliminating the need to interpret or match colors.

100 per pouch	**| IMS-1241**

SPORECHECK

The SporeCheck 24 Hour In-Office Test® biological monitoring system provides reliable results in 24 hours, while being in compliance with local, state and federal guidelines. The SporeCheck system can be used with all types of steam sterilizers – including gravity, pre-vacuum and flash sterilizers.

| SporeCheck Starter Kit	**| IMS-1376**
Contains: Dry Block Incubator with built-in vial crusher, record notebook and 1 box SporeCheck Biological Indicators, 25 count	
SporeCheck Biological Indicator Vials, 25 count	**| IMS-1373**

STERILIZATION PRODUCTS
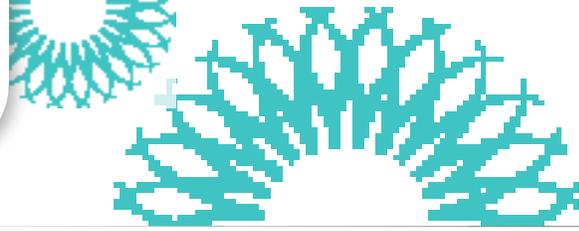

STERILIZATION CONTAINER SYSTEM

Hu-Friedy's Sterilization Containers are a reusable, rigid system used for the packaging of cassettes and instruments during sterilization. An alternative to the wrap and pouch materials commonly used to package cassettes and instruments, Sterilization Containers provide significant economic and environmental benefits along with enhanced safety.

The filter retention plates audibly click to lock into place providing easy filter changes

Two external display windows provide space for a process indicator card and container identification

Tamper evident seals on latches provide visual evidence of sterility breach

Lid and bottom are made of anodized aluminum making them lightweight with excellent drying properties. The aluminum alloy with an anodized oxide surface helps resist corrosion.

Latches on the lid act as handles for easy, contamination free lid removal

Container Cassette for 12 Instruments

Blue
268 x 176 x 34 mm | IMECC128
10-1/2" x 7" x 1-1/3"

Fits all sterilization containers
Container Cassette with handle on lid and filter outlets. Fits 12 instruments, with an accessory area.

HAND HYGIENE PRODUCTS

HAND ESSENTIALS

Hu-Friedy Hand Essentials is a complete line of medical grade hand moisturizers, sanitizers and soaps designed for frequent use to help with program compliance. All of Hu-Friedy's hand hygiene products are non-irritating, cost effective and are tested to be Chlorhexidine Gluconate (CHG) and latex glove compatible.

SANITIZERS   MOISTURIZERS   SOAPS
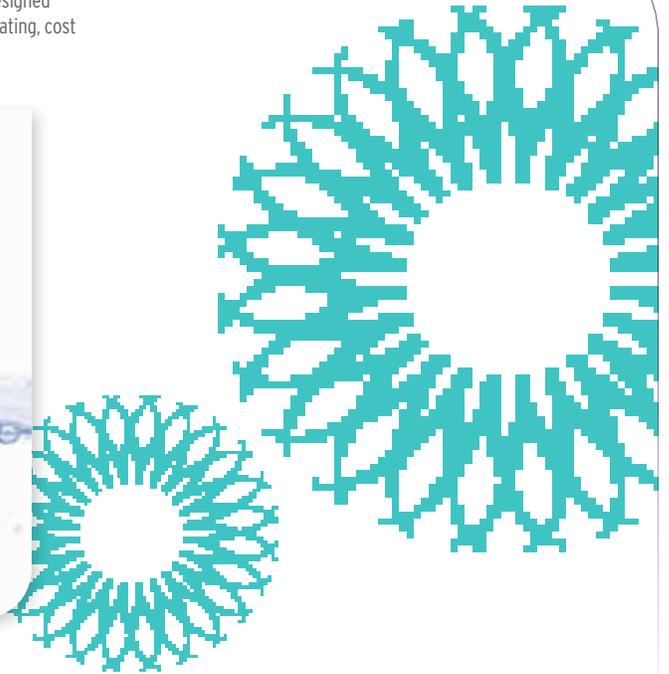

Hand Essentials™ Skin Repair Cream
Helps restore the skin's natural moisture balance

	US	Canada
32 Fl oz (946 mL) Bottle w/ Pump	| IMS-1500	| IMS-1500CA
4 Fl oz (118 mL) Tube	| IMS-1501	| N/A
2 Fl oz (59 mL) Tube	| IMS-1502	| IMS-1502CA
4 mL Packet, Case of 144	| IMS-1508	| IMS-1508CA

- Aids in delivering moisture and nutrients to skin
- Contains Olivamine® to aid in the skin repair process
- CHG and latex compatible

Hand Essentials Moisturizing Lotion
Contains oatmeal, aloe vera and Vitamin E for a soothing feel

	US	Canada
33.8 Fl oz (1000 mL) Bottle w/ Pump	| IMS-1503	| IMS-1503CA

- Non-greasy and scent-free
- Perfect for end of the day moisturizing
- CHG and latex compatible

Olivamine is a registered trademark of McCord Research Inc.

Sterillium Comfort Gel® Hand Antiseptic
Scientifically proven, easy-to-use hand sanitizing gel

|	
16.06 Fl oz (475 mL) Bottle w/ Pump	**| IMS-1504**
Sterillium Wall Bracket (for IMS-1504) 2/pk	**| 974730**
1.69 Fl oz (50 mL) Bottle	**| IMS-1504S**

- 85% Alcohol kills 99.999% of a broad range of nosocomial pathogens within 15 seconds
- Proven at only 2.4 mL per application
- Proven to increase skin hydration within one week
- CHG and latex compatible

INCREASED SKIN HYDRATION
Sterillium Comfort Gel® significantly increases skin hydration after only one week of product usage compared to untreated skin.[1]
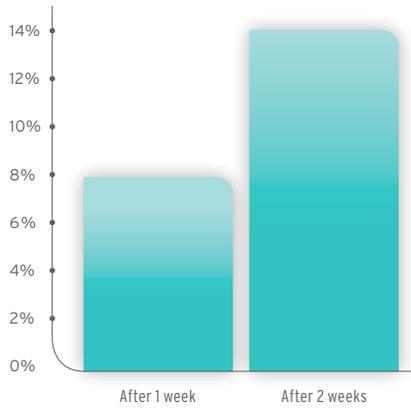

TRADING ECONOMY FOR EFFICACY – IN VIVO TEST
Our test comparing Sterillium Comfort Gel® against two competitors products showed that for Sterillium, only 2.4 mL was required to entirely cover the hands and nails.
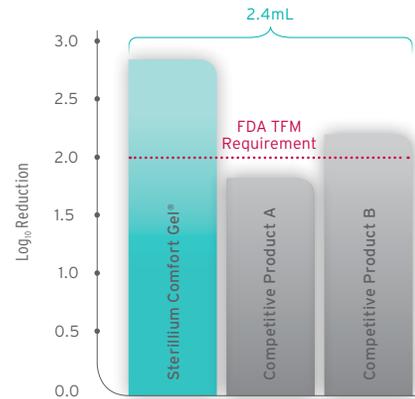

Test method follows FDA TFM for Health-Care Antiseptic Drug Products[2] and compliant with ASTM E1174, Standard Test Method for Evaluation of Healthcare Personnel Handwash Formulations. Sterillium Comfort Gel® in comparison to two other alcohol-based hand sanitizers available on the market.[3] In vivo testing shows, use of only 2.4 mL of Sterillium Comfort Gel® exceeds the FDA TFM efficacy requirements.[4]

Hand Essentials Instant Hand Antiseptic
An essential germ-killing aid to disinfect hands

16 Fl oz (473 mL) Bottle w/ Pump	**| IMS-1505**

- Contains Vitamin E and aloe vera to condition skin
- 70% v/v ethyl alcohol gel dries quickly on hands
- Scent-free formula
- CHG and latex compatible

Hand Essentials Antibacterial Soap
Effective against bacteria, yet gentle enough for frequent use

16 Fl oz (473 mL) Bottle w/ Pump	**| IMS-1506**

- Rich lathering, quick-rinsing soap
- 0.5% Triclosan active antibacterial ingredient
- CHG and latex compatible

Hand Essentials Lotion Soap
Soothing, gentle on hands and pH balanced

	U.S.	Canada
16 Fl oz (473 mL) Bottle w/ Pump	**| IMS-1507**	**| IMS-1507CA**

- Enriched with moisturizing skin conditioners
- Rich feel, clean light scent
- CHG and latex compatible

Sterillium Comfort Gel is a registered trademark of Bode Chemie GmbH Co.

^ According to equipment Manufacturer, when the UC300/UC300R is used with Hu-Friedy 10-instrument cassettes, in order to obtain full cassette coverage, it may be necessary to fill the tank beyond the fill line. Ensure the water level does not exceed the lip of the plastic bezel inside the tank. This action will not void the standard warranty.

+ Recessed models
† Must order 2 x 4XL Cassette Racks (Full Size) - part #01-109965S
• Original style basket with integrated instrument holders on bottom
› New style basket with flat bottom

§ In order to obtain full cassette coverage, it may be necessary to fill tank beyond the fill line. Please ensure water does not extend above top of tank. Capacity show with optimal instrument cassette basket.

^ Insert tray on bottom shelf and then place ortho boxes

SUGGESTED STERICENTER LAYOUT

The Center for Disease Control (CDC) recommends the processing area should be divided into four sections to control quality and ensure safety:

1. Receiving, Cleaning & Decontamination
2. Preparation & Packaging
3. Sterilization
4. Storage

Sterile Cassette Storage

Sterilization

Automated Handpiece Cleaner (optional)

Waste Management
Chutes for regular waste and sharp/biomedical articles

Operatory Prep Area

Wrapping Drawers

Drying Drawer (optional)

Rinsing
Large deep sink

Cleaning
Recessed or Countertop Ultrasonic

Pre-soaking
Large basin for cassettes (optional)

Dental Instrument Washer
Cleaning, Rinsing, Drying (optional)

STERILE

SOILED

Space Requirements: Cassettes vs. Trays

Counter Space Cassettes vs Trays

	Cassettes	Trays
Instrument Break Down Area	12"	36"
Ultrasonic Cleaner Area	24"	24"
Sink	24"	24"
Drying and Packaging	18"	36"
Hand-piece Maintenance	12"	12"
Sterilizer	24"	24"
Tray Assembly and Storage	18"	36"
Total Space	11 feet	16 feet

Counter Space Required

	Cassettes	Trays
4 – 6 Operatories (Stericenter)	11 feet	16 feet
7 – 8 Operatories (Stericenter)	13 Feet	19 feet
9 or more	15 feet	22 feet

Adapted with permission from Dr. Mark Tholen's book "A Guide to Designing an Elegant Dental or Medical Office"

CASSETTE AND EQUIPMENT "RULES OF THUMB"

In order to determine your specific instrument and cassette needs, review these "Rules of Thumb." They offer good insight into your decisions about cassettes and equipment.

How many cassettes do I need?

To estimate the minimum number of cassettes needed for your office:

1. Take the average number of procedures performed per day — 20
2. Divide that number in half — 10
3. Add one additional cassette for backup and emergency — 10+1=11
4. Total number if cassettes needed per day — 11*

*Note: Guidelines only! This example processes instruments through sterilization 2 times per day. High production offices will need enough cassettes for 3-4 sterilizations cycles per day.

What kind of ultrasonic equipment do I need?

Offices with:

- 1 Doctor / 1 Hygienist = 3 gallon tank minimum
- 1 Doctor / 2 Hygienist = 3 gallon tank or 6 gallon tank (if a fast-pace office)
- 2 Doctors / 1 Hygienist = 3-6 gallon tank
- Group Practices = Two 6 gallon tanks or instrument washer

Note: 1 Gallon = 3.785 liters

Sterilization Equipment?

Offices with:

- 1 Doctor / 1 Hygienist = 10" + chamber
- 1 Doctor / 2 Hygienist = 10" + chamber
- 2 Doctors / 1 Hygienist or users of Dental Automated washer/ disinfect or = One-Two 10" + chambers or one very large sterilizer

IMS INFECTION CONTROL STARTER PACKAGES

Hu-Friedy now offers complete Infection Control Starter Packages that include everything you need to ensure a safer and smarter practice for you and your patients from day one. Simply choose the appropriate package based on whether or not you are a cassette user.

For a discounted price off of retail, you will receive Enzymax, IMS wrap, SporeCheck, Team Vista, Hu-Friedy Hand Essentials and more.

Hu-Friedy's Starter Packages offer you two choices; if you are a Cassette user then ICSPCASS, the Cassette IC Starter Package is for you (ICSPCASSCA in Canada). However, if you don't use Cassettes in your office we have ICSPCONSBL, the Consumable IC Starter Package to choose from (ICSPCONSCA in Canada).

HUSAVE℠ CONSUMABLES SAVINGS PROGRAM*

Experience huge savings and earn great benefits as a member of Hu-Friedy's HUSAVE program!

HUSAVE offers a variety of disposable products direct from Hu-Friedy at significantly reduced prices. No more worrying about re-ordering or stocking bulky disposable products. The HUSAVE program is designed to dramatically reduce the time you spend purchasing while saving you money in the process!

Simply choose the product you would like to order, and when you would like them to ship, and we will do the rest. We will ship the product as you indicated and bill you through your dealer of choice.

To enroll in HUSAVE or to learn more about the savings program, please call 1-866-HUSAVE3 or go to Hu-Friedy.com.

SAVE MONEY
10-50% on purchases of consumable products

SAVE TIME
Place one order for the entire year or call us when you need product

SAVE SPACE
No need to store extra supplies

*Available in the US only

The HUSAVE Program includes the following product categories:

Cleaning & Care Products   Sterilization products   Hand Care Products   Sutures and Scalpel Blades

TROUBLESHOOTING

Problem	Cause	Prevention
• Spotting	• Insufficient rinsing after ultrasonic cleaning	• Rinse thoroughly under steady stream of water for 30 seconds. Use distilled water if possible
	• Insufficient drying after ultrasonic cleaning	• Rinse with hot water • Optional: Dip cassettes in alcohol after rinsing
	• Not changing ultrasonic solution	• Solution should be changed at least once a day
	• Sterilizer has not been cleaned	• Follow manufacturer's guidelines for maintenance and cleaning • Use only distilled water for reservoir
• Rust	• Corrosion from carbon steel instruments spreads to stainless steel instruments	• Separate stainless and carbon instruments • For carbon steel instruments: Dip in pre-sterilization solution as suggested by sterilizer manufacturer
	• Abrasion can destroy the chromium/oxide surface	• Lubricate joints and lock area
	• Sterilizer not clean	• Follow manufacturer's guidelines for maintenance and cleaning
• Pitting	• Chemical attack on instruments	• Rinse and dry instruments thoroughly • Use approved cleaning and sterilization solutions only, never use household bleach or stain and tartar remover
	• Chlorides (water leakage from water softener or additives containing chlorides	• Use demineralized or distilled water in final rinse.
	• Organic residues (blood, saliva, sweat)	• Use approved cleaning and sterilization solutions only. Never use bleach, tartar or cement remover

Problem	Cause	Prevention
Staining (Resin cassettes)		
• Black/ Purple	• Amalgam left in carrier	• Thoroughly remove amalgam or other compounds from the instrument prior to processing • If carrier is plugged, sterilize separately and unplug while carrier is warm
	• Contact with ammonia	• Use only proper and approved cleaning agents and rinse thoroughly
• Green	• Chrome breakdown of instruments	• Inspect instruments and replace those with cracked handles or peeled plating
• Yellow/ Brown	• Sterilizer has not been cleaned	• Change reservoir water once a week • Regularly clean chamber and filters according to manufacturer's instructions
	• Normal use discoloration	• Every 6 months soak resin cassettes (without instruments and not in the ultrasonic) in 2 cups bleach to 1 gallon of water for 5 to 30 minutes
• Brown/ Blue	• Sterilizer has not been cleaned	• Regularly clean chamber and filters according to manufacturer's instructions
• Turning Matte Gray	• Excessive lime in water	• Use demineralized or distilled water for softened water in cleaning stage
	• Cement remover has been in contact with instruments	• Wipe off cement removers prior to placing in an automatic washer
Cassette Issues		
• Broken Hinges	• Overloading/ improperly placed instruments	• Instruments should not protrude from cassette • Only light force is needed to close the cassette
	• Improperly placed rails	• Do not reposition resin cassette rails
• Wet Packs	• Insufficient drying before or during sterilization	• Thoroughly dry cassette after cleaning, before wrapping • Crack open autoclave sterilizer door during dry cycle • Optional: After sterilization cycle, leave cassettes in warm sterilizer for 10 minutes
	• Improper loading of cassettes in sterilizer	• Do not overpack sterilizer • Keep cassettes slightly separated within the chamber • Always use sterilizer's cassette rack
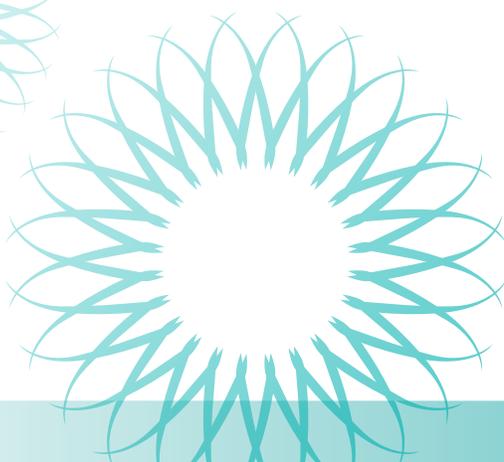

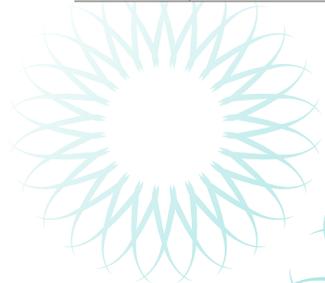

REFERENCE SECTION

TECHNICAL SERVICE

Complete servicing for IMS Cassettes in North America is available at our Chicago facility. Please wrap and sterilize cassette prior to returning for repair. Items returned for servicing should be sent via UPS or registered insured mail–

ATTENTION: Technical Service Department
Hu-Friedy Mfg. Co., LLC
1666 E. Touhy Ave.
Des Plaines, IL 60018

Price quotations on cost of repair are available upon request. If in need of additional service, please contact your local Hu-Friedy dealer. For IMS cassette service outside North America, please contact your local Hu-Friedy dealer.

IMS LIMITED WARRANTY

IMS® Cassette Limited Warranty

Hu-Friedy, at its sole option, will repair or replace, for a period of four years following the date of purchase, any IMS® cassette that is defective because of failure of materials (including corrosion) or workmanship of the cassette shell. Hu-Friedy, at its option, will also repair or replace, for a period of one year following the date of purchase, any, IMS® cassette that is defective because of failure of materials or workmanship of the internal and moving components. Purchaser must return the defective cassette (postage prepaid) and must have previously provided Hu-Friedy with the warranty registration card.

HU-FRIEDY DISCLAIMS LIABILITY, UNDER THIS WARRANTY OR OTHERWISE, FOR DAMAGES ARISING FROM (1) USER NEGLIGENCE, MISUSE, ABUSE OR ALTERATIONS TO THE CASSETTE; (2) THE USE OF COMMERCIAL/RESIDENTIAL GRADE WASHERS; (3) DENTAL AUTOMATED WASHER – DISINFECTORS WHERE MANUFACTURER'S PROCESSING GUIDELINES ARE NOT FOLLOWED; AND/OR (4) IMPROPER SET-UP AND INSTALLATION OF THE DEVICE.

Care Instructions for IMS and IMS Signature Series cassettes can be found on the instrument processing insert included with each cassette and in the approved Instrument Reprocessing Guide on Hu-Friedy.com.

See website for complete warranty information. Hu-Friedy.com/IMSwarranty

TROUBLESHOOTING: REPROCESSING DO'S AND DON'TS

DO

...wear Hu-Friedy's Lilac Utility Gloves when handling contaminated cassettes and instruments.

...change the ultrasonic solution at least once a day or when visibly soiled. Dirty solution harbors particles that may inhibit efficient cleaning process.

...wipe off cement residue, glass ionomer and/or other heavy debris at chairside immediately after use.

...use Hu-Friedy's Enzymax products when cleaning Hu-Friedy cassettes and instruments for best results.

...sharpen instruments at chairside after sterilization and before a procedure. Hu-Friedy's sharpening stones can be processed along with instruments in the IMS cassette.

...autoclave utility gloves in seperate sterilization pouches.

DON'T

...let instruments protrude from cassettes.

...place cassettes in temperatures above 350°F/177°C.

...overload the cassette. If there is resistance when closing cassette, stop. Remove excess items and repeat the closing process. Forcing cassette to close under stress may inhibit future performance.

...put stainless steel and carbon steel instruments in the same cassette.

...reposition the location of the rails in resin cassettes. Improper rail location may cause undue stress on the cassette and can damage it.

...use IMS Autoclave Wrap in dry heat sterilization.

...run ultrasonic unit or steam autoclave without water.

HU-FRIEDY SOCIAL RESPONSIBILITY

At Hu-Friedy, we believe in helping dental professionals perform their best. We strongly believe in protecting the health of our planet in addition to supporting the health of individuals. Part of this effort is looking toward the future and finding solutions such as printing this catalog on 30% recycled paper.

Hu-Friedy is proud to join a number of proactive, forward-thinking companies who are working together to ensure a better future for our planet with environmentally-friendly programs and products. Our internal effort includes a recycling program in which we recycled over 48,000 lbs of paper, 37,000 lbs of cardboard and over 1,000 lbs of batteries.

We are working toward finding ways to conserve energy, building our offering of "green" products and providing recycling options for our customers. Look for the leaf design throughout this catalog signifying our "green" offerings.

ENZYMAX EARTH™ DETERGENT

Enjoy all of the same great benefits of Enzymax detergents with an increased awareness for our environment. All Enzymax Earth products are biodegradable and phosphate free* (see page 29).

TEAM VISTA™ WATERLINE CLEANER

Does not introduce heavy metals into the environment through dental waterlines and utilizes an organic irrigant derived of citrus botanicals (see page 32).

IMS LEAD AND LATEX FREE MONITOR TAPE†

Making it safe for the environment, your staff and your patients and does not require special hazardous disposal (see page 34).

STERILIZATION CONTAINERS

Sterilization containers are a system of sterilization packaging in which reusable aluminum containers are used to sterilize instruments and cassettes. They provide a low cost of use, long service life and minimal use of disposable products (see pages 36–37).

ENVIRONDENT® INSTRUMENT RECYCLING PROGRAM

This program has been making a positive impact on the environment for over 15 years by recycling old, broken or retipped instruments in an environmentally responsible way. Visit Environdent.com for more information.

*Biodegradable formula according to the organization for Economic Cooperation and Development (OECD) Testing
† Not made with natural rubber latex
