HuFriedyGroup is the only manufacturer of three different designs of single-use nasal masks—so there is a style that will meet every clinician’s needs!

**Accutron™ ClearView™ Nasal Mask**
The most popular Accutron design! This “mask-in-mask” style keeps the gas enclosed without the use of a scavenging hub and has an improved facial seal for added comfort and safety.

**Accutron™ Axess™ Nasal Mask**
The lowest profile Accutron design, with the lightest weight tubing. No cannula or tape needed, so it does not sacrifice comfort for fit!

**Accutron™ PIP+™ Nasal Mask**
The original Accutron™ design and still a reliable choice for nitrous delivery. Available with both single- and multi-use options.
