Endodontic Instrumentation

THE CHALLENGE

The sensitive nature of endodontic procedures necessitates instruments with exceptional response, integrity and durability to accommodate a wide variety of endodontic procedures—from routine root canals to complex microsurgery.

THE SOLUTION

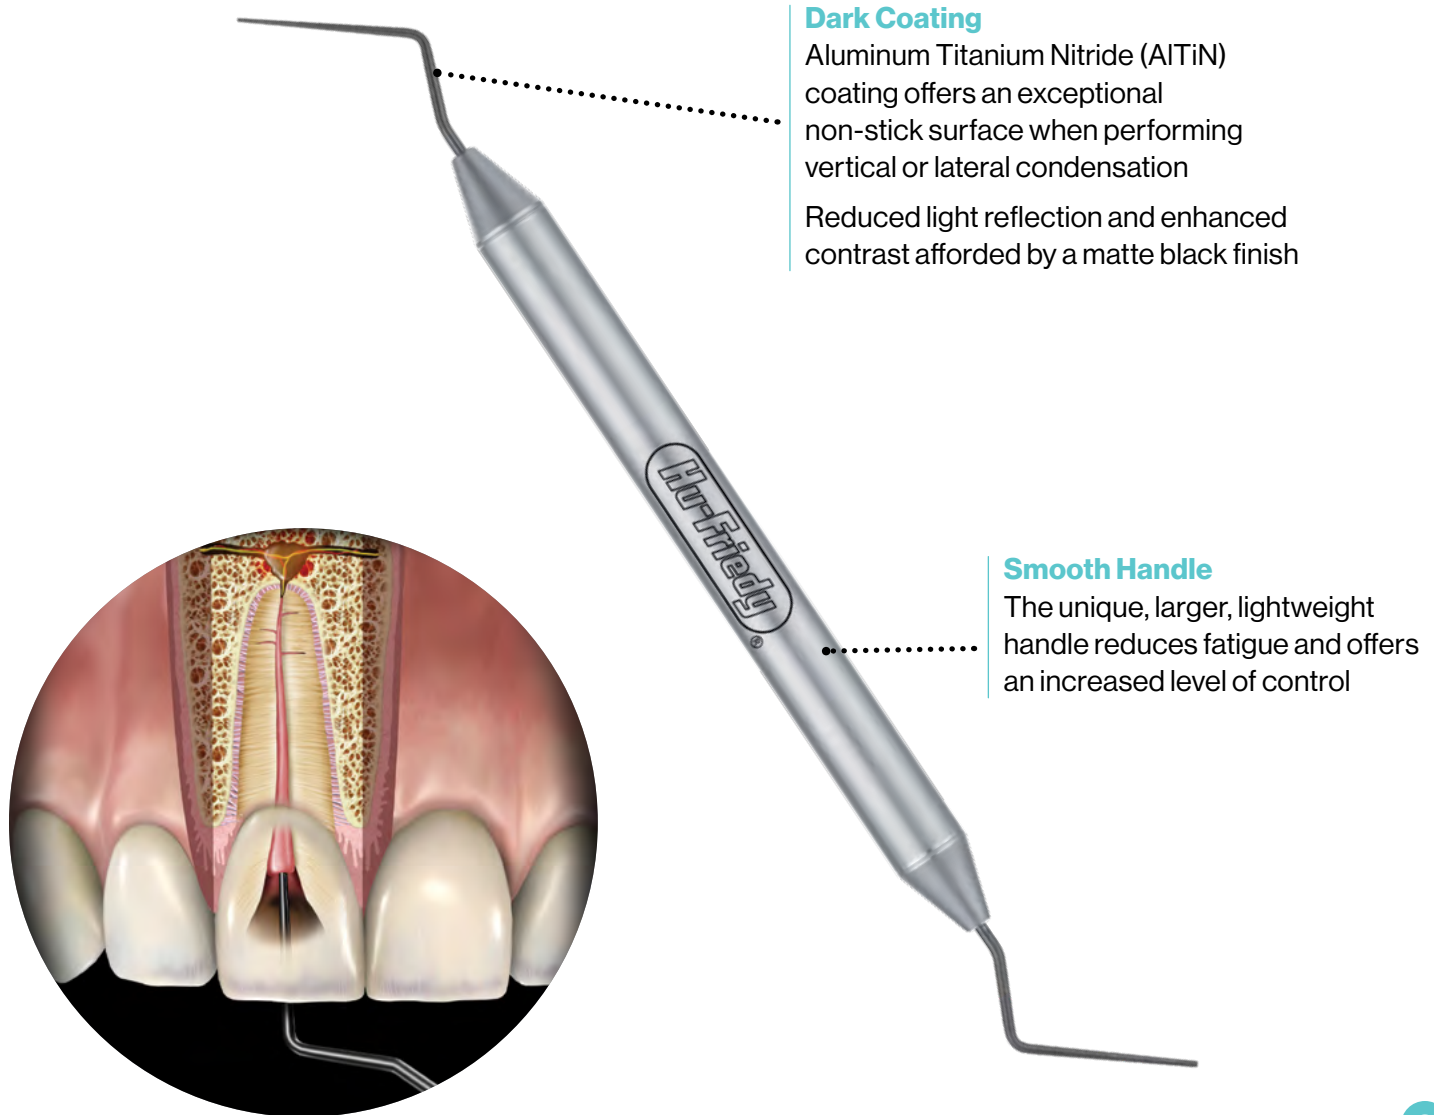

Our Black Line Endodontic Instruments are individually handcrafted to precise specifications from quality materials to ensure superior performance, longevity and reliability. Instrument design combined with proprietary materials and incomparable workmanship result in instruments with unique balance, working leverage and control. They function as a seamless extension of the practitioner's skill.

THE RESULT

High-quality HuFriedyGroup Instrumentation provides unsurpassed clinical efficiency, so practitioners can deliver superior outcomes and focus on the patient. The result is outstanding patient care.

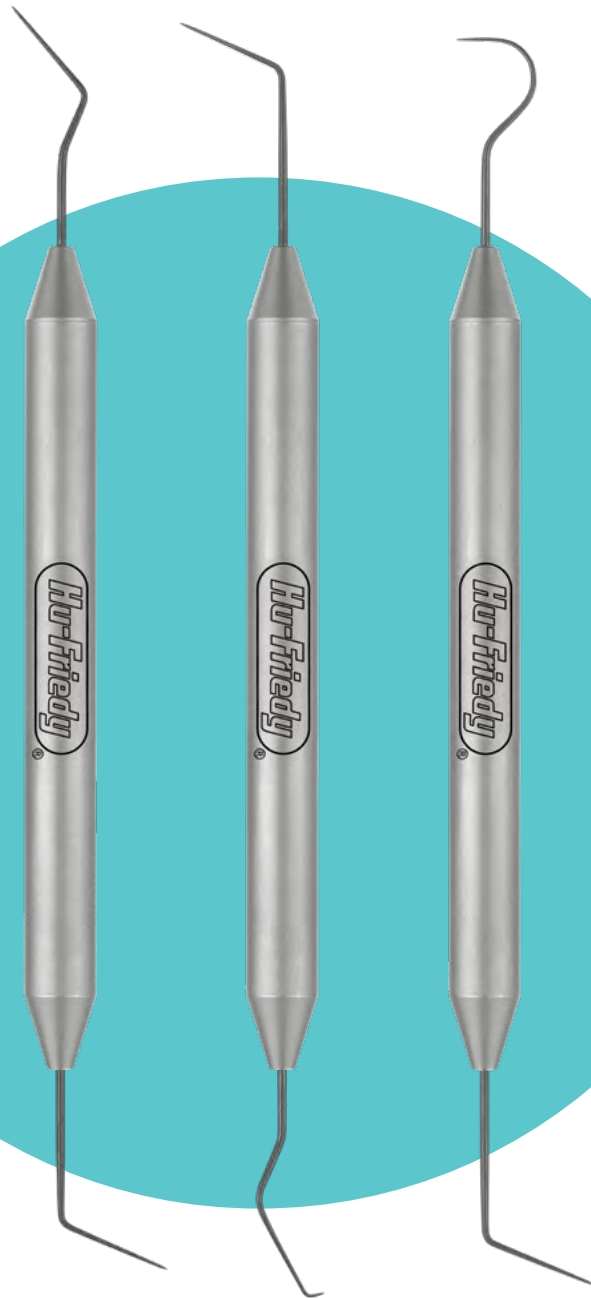

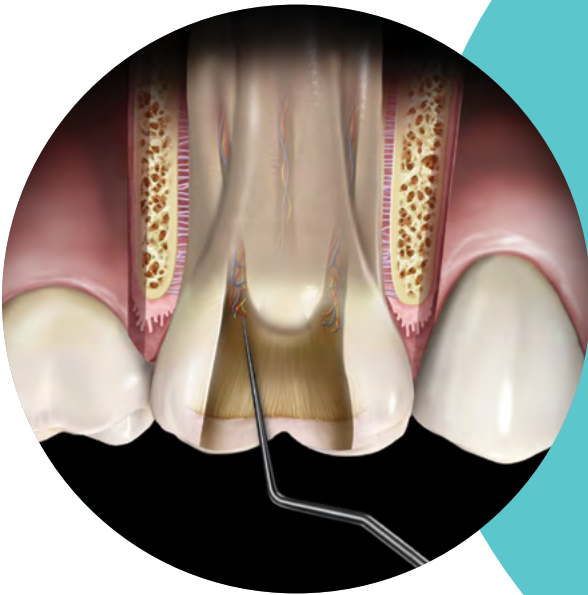

Black Line for Endo

Featuring a performance engineered coating to enhance lubricity, reduce light reflection under harsh lighting, and optimize edge retention, the Black Line Endo Instruments are designed to provide exceptional clinical outcomes and improved efficiency during endodontic procedures.

Explorers

Our endodontic explorers are made from a special blend of alloy which provides the flexibility, strength, tactile sensitivity and resilience clinicians need when exploring and assessing the treatment site. They are available in several double-ended designs and handles.

Excavators

Our endodontic excavators feature extended-length shanks and are meticulously handcrafted from the highest grade stainless steel. They help the clinician access the pulp chamber for easy and efficient removal of dentin. The result is a superior clinical outcome and improved efficiency.

Spreaders

We manufacture a wide variety of spreaders, all handcrafted from the finest stainless steel to precise specifications. Our spreaders help the clinician gain access into the most difficult canals for optimal compaction of filling material during lateral condensation.

Black Line Rubber Dam Clamps

Our rubber dam clamps are made in the USA from proprietary Satin Steel™ Alloy for corrosion resistance, superior strength, and a fine balance between flexibility and memory. The black matte finish absorbs and dissipates light instead of reflecting it back, so you can experience a comfortable field of vision that is easier on the eyes—to help you be the Best in Practice.

SKU	DESCRIPTION
RDCM106LX	Rubber Dam Clamp #106L, Black Line
RDCM106RX	Rubber Dam Clamp #106R, Black Line
RDCMB4X	Rubber Dam Clamp #B4, Black Line
RDCM12AX	Rubber Dam Clamp #12A, Black Line
RDCM13AX	Rubber Dam Clamp #13A, Black Line
RDCM14AX	Rubber Dam Clamp #14A, Black Line
