KIT LIST

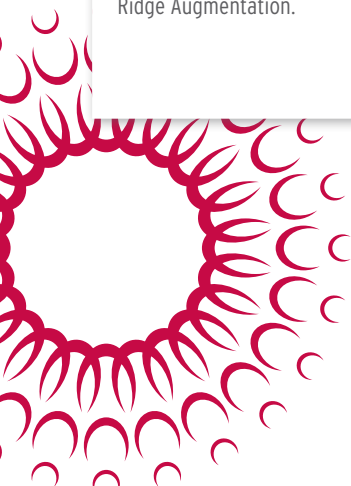

Atraumatic Extraction Socket Preservation Kit List

DESCRIPTION	PART CODE	QUANTITY
Basic Kit		
University of Minnesota Cheek Retractor	CRM	
Cawood-Minnesota Retractor	CRM2	
Urban Cheek Retractor	CRURBAN	
5 Straight Round Scalpel Handle	10-130-05	
3 Scalpel Handle	10-130-03	
Buser Periosteal Elevator, Black Line	PPBUSERX	
9 Molt Periosteal Elevator, Black Line	P9X	
PR-3 Prichard Periosteal, Black Line	PPR3X	
Periotome, Posterior, Black Line	PT1X	
Periotome, Anterior, Black Line	PT2X	
SE Posterior, Right, Black Line	PT3X	
SE Posterior, Left, Black Line	PT4X	
SE Anterior, Angled, Black Line	PT5X	
SE Anterior, Straight, Black Line	PT6X	
Interchangeable Periotome, Kit	PTIKIT	
Luxating Elevator 3 MM, Curved, Black Line	EL3CX	
Luxating Elevator 3 MM, Straight, Black Line	EL3SX	
6 Right Bernard Syndesmotome	BER6	
7 Left Bernard Syndesmotome	BER7	
11 Straight Bernard Syndesmotome	BER11	
Precision Tip Elevator Large Distal	EPTLGD	
Precision Tip Elevator Large Mesial	EPTLGM	
Precision Tip Elevator Small Curved	EPTSMC	
Precision Tip Elevator Small Mesial	EPTSM	
Precision Tip Elevator Small Straight	EPTSMS	
Precision Tip Elevator Straight Spade	EPTSSP	
Luxating Hybrids Kit	EPTKIT	
1 Apical Forceps, Upper Incisors, Atraumair	FAF1XS	

Hu-Friedy's Fundamental Concepts in Implant Dentistry was created to be a complete guide on the full life cycle of the implant. The guide begins with patient assessment and site preparation, covers implant placement and prosthetic selection, as well as implant maintenance and care for peri-implantitis.

To accompany the guide, Hu-Friedy has developed suggested instrument kit lists which correspond with the topics covered, including: Atraumatic Extraction Socket Preservation, Sinus Lift - Lateral, Sinus Lift - Crestal, and Ridge Augmentation.

HU-FRIEDY IMPLANTOLOGY GUIDE

KIT LIST
